

" X - Fade "

" Moon "

" Lucifer "

" C14 "

Cycles the following colours with equal time intervals:
Blue - Blue/Cyan - Cyan - Green/Cyan - Green -
Yellow - Yellow/Green - Orange/Yellow - Orange -
Red - Pink - Red/Magenta - Magenta - Magenta/Blue

" Random "

Chooses random brightness values for Red, Green and Blue then fades from current colour to newly chosen colour then does the same again.

" Random
C14+W "

As per 'Random' controller with the addition that randomly every third to sixth colour is white, so all channels fade up to full output to give white.
